

Spray Arm

Public selection information · 2026-09-09

Dishwasher spray systems

Hot-plate welded upper and lower shells form a sealed water channel; outlet jets rotate the arm for cleaning coverage.

Body material	Engineering polymer
Joining process	Hot-plate welding
Function	Rotating spray
Validation	Flow and sealing

For initial selection, not an approved production drawing. Confirm ratings, load, mounting, interfaces and certification scope for the exact model and program.
